## On-Site Log Home Maintenance Inspection:

Our unique On-Site Log Home Maintenance Inspection is a 2-3 hour comprehensive evaluation of the logs and log finish providing education and information as well as a detailed report with recommendations to properly maintain and preserve your log home.

### On-Site Maintenance Inspection Checks for:

- Failed Finish/Decay/UV Damage
- Mold, Mildew, Algae and Sap stain
- Signs of Insects and Carpenter Bees
- Backsplash Concerns
- Condition of Fascia and Soffit
- Proper Overhang
- Excessive Checking
- Chinking or Caulking Failure
- Proper Drainage
- Condition of Log Ends
- Gaps between Log Seams
- Ground Clearance
- Post and Deck Condition
- Proper Flashing

### On-Site Maintenance Report includes:

- Details of any Concerns or Issues Found
- Recommendations for Repairing and/or Maintaining
- Total Log Surface and Linear Feet of Log Seams (to receive accurate estimates or order supplies)
- Moisture Meter Reading
- Log Home Maintenance Book
- Information Regarding Professional Log Home Finishing Companies

**\$300**

**MA - RI - Eastern NY  
NH, VT and ME**

*Contact us for pricing outside this area*

## Off-Site Log Home Maintenance Inspection:

Our Off-Site Log Home Maintenance Inspection is a cost effective way to help you determine the basic overall condition of your logs and log finish while offering a maintenance plan specifically designed for your log home.

### How it works:

1. We Gather Basic Log Home Information
2. You Submit Exterior Photos for Review (one of each log wall, close up of the finish, and any areas of concern)
3. We Discuss the Findings and Mail you a Written Maintenance Report Specifically for Your Log Home

Every log home is unique - in most cases by reviewing the photos and details of your log home such as design, log profile, log ends, decking, roof overhang, ground clearance, drainage, exposure... this allows us to recognize certain areas that may need to be addressed and steps that can be implemented to prevent problems in the future.

**\$125 – All Areas**

*Log decay, signs of insects, excessive checking, improper flashing, failed caulking... cannot be determined or may not be noticed without an On-Site Inspection, however we help provide the tools to make you aware of any obvious concerns.*

## Free Estimates:

Receive Free Estimates from our network of Log Home Professionals on all Log Home Maintenance & Restoration Services including:

- Media Blasting (walnut shells, glass bead, corn media)
- Log Cleaning/Washing
- Log Home Staining
- Log Repair/Replacement
- Caulking/Chinking
- Log Home Additions

Once we receive your details such as: location, time frame, services... we will help match you with a log home professional who services your area. If you would like more than one estimate, we will do our best to provide an additional estimate to compare companies, service and price.
